Subject: MKD1011 TO BE SUPERSEDED BY MKD1083

The abutment kit included in the MKD1083 hydraulic brake pad now includes spreader springs. The MKD1011 and MKD1083 pads include steel backing plates that are identical, except that the MKD1083's plate is x-drilled on the upper radius. The x-drilled holes in the plate are for the spreader spring.
